## About Prominent Ex-Confederates.

Jake Thompson is living in moderate circumstances at Memphis, Tenn.

Beauregard is superintendent of street railways at New Orleans with a good salary.

The sons of Howell Cobb are farming, and getting along tolerably since the decease of their father.

James Longstreet has a public position which suffices to maintain himself and his numerous family.

Clement C. Clay is buried at Huntsville, where his property is pretty much torn up by Gen. Sherman.

Gen. P. D. Roddy, who had a cavalry brigade, is a banker in New York, and in good circumstances.

Joe Johnston is thriving as a leading life-insurance agent in Savannah. He is growing old with composure.

Gen. Kershaw of South Carolina, is a lawyer in the quiet town of Camden, and is making a good livelihood.

Gen. Hill keeps a school at the town of Hillsborough, and meantime edits a periodical, published once a month, called "The Southern Eclectic."

Gen. Dick Taylor is probably the richest of the Confederate Generals, and is engaged in New Orleans, abetting Warrington.

Governor Isham G. Harris resides at Memphis, where he would have a very good worldly condition if he were not out of the Democratic vote with him.

Gen. Albert Pike, a Brigadier from Arkansas, is practicing law at Washington City, with ex-Senator Johnson, of Arkansas, and has just republished his delicate poems.

Ben. Hill, ex-Confederate, is practicing law at Atlanta, and is said to be the best lawyer in the State. He was a Senator of the Confederate States, and had personal acquaintance with Lee.

Joe Brown is fifty-five years old and is the Bismark of Georgia. He is pretty rich, is worth anywhere between \$1,000,000 and \$2,000,000, and is President of the Western and Atlantic Railroad.

Gen. Cheatham, having made an unsuccessful run for Congress against Horace Maynard, has retired to private life, breathing scorn upon Andrew Johnson, who divided the Democratic vote with him.

Ex-Senator Robert M. T. Hunter has a poor farm on the Rappahannock River, in the tide-water part of Virginia, and is said to be dispirited, although his counsel is sought at all times, and his intellect retained its full vigor.

Jeff Davis is President of the South Carolina Insurance Company at Memphis, under the patronage of Mr. Wick, which bank recently went up when the Southern Railway failed.

Gen. John C. Breckinridge lives in Lexington, Kentucky, and was given an important place at one time by the Chesapeake and Ohio railway, whose success he had a quiet disposition, but no great bounce in these piping times of peace.

The Modoc Trap Report of General Schofield to General Sherman.

WASHINGTON, April 30.—General Sherman to-day received the annexed dispatch from General Schofield:

LAVA BEDS, April 28.—On the 29th Major Green, commanding on the west side of the lava bed, ordered Captain Thomas, Fourth artillery, and a party of Warm Spring Indians, about seventy soldiers and fourteen Indians, to make a reconnaissance in a southeasterly direction, to a point about five miles from the camp. The party left the camp about 12 m., and reached the designated point, and were resting. No Indians had yet been seen.

Major Green, upon search in the lava beds, the bodies of Captain Thomas and Lieutenant A. P. Howe, Fourth artillery, and Lieutenant Thomas F. Wright, Seventh Infantry, were found. First Lieutenant Arthur Cranston, Fourth artillery, has not been found. It is supposed they killed Lieutenant Green M. Harris, and acting Assistant Surgeon Semig is seriously thought not dangerously wounded. Thirteen enlisted men were killed and wounded. All of the officers and part of the men remaining together, and fought like heroes, but the Indians had secured the advantage of the position before being discovered. The remains of the officers will be taken to Yreka to-morrow.

The Banner. Official Paper of the County. EDITED BY L. HARPER. MOUNT VERNON, OHIO: FRIDAY MORNING, MAY 9, 1873.

A New Volume. The present number begins a new volume of the BANNER, or the thirty-seventh year of its existence. For nearly twenty years of that time it has been published by the present editor and proprietor. We are happy to add that it was never in a more flourishing condition than at the present time. Its circulation is nearly three times what it was when we purchased the establishment in 1853.

We have no news this week from the "Modoc War."

The Vienna show has commenced, but it will not be in "full blast" for a month yet.

The municipal elections in Indiana, on Tuesday, so far as heard from, resulted in a signal victory for the Democracy.

A civil war, or rather a war of races is brewing in Louisiana. The devil seems to have broken loose there.

Half-dozens of the Commercial demands cheap lager, and Bloss of the Enquirer, demands cheap whisky. Every man to his taste.

The American Smokestack was at Chicago on Monday on his home-bound trip. He will not rest until he reaches Long Branch.

The Morgan raiders did not succeed in getting their hands into our State Treasury. Several other jobbers were served in like manner.

There are about twenty-five candidates for the position of Clerk of the Constitutional Convention; and several counties still to be heard from.

Mr. Baber, of Columbus, is making arrangements to "run" the Constitutional Convention. That will save a great deal of labor to the rural members.

There is a rumor in Washington that Mr. Richardson will soon retire from the Treasury Department, and that the great and good Delano will succeed him.

Moseley, the guerrilla chief, controls the Federal patronage in Virginia. The meanest rebels during the "late unpleasantness" are now the most violent Grant Radicals.

It has been proposed in several quarters, to run Hon. S. S. Cox for Congress, in New York, as the successor of Hon. James Brooks, deceased. A capital idea.

There is no use destroying the lives of white men in a war against the Modocs in the Lava Beds. Let the Government employ Indians to fight Indians. "Fight the devil with fire."

The Pennsylvania Railroad Company, operating the Pittsburgh, Ft. Wayne and Chicago Railroad, have issued proposals for grading and masonry for a second track on the latter road between Pittsburgh and Chicago.

The Constitutional Convention will meet in Columbus on Tuesday next, May 13th. If the Democrats, Liberal Republicans and Independents unite, they will have a majority in that body, and can control its organization.

The official report of the late slaughter of our troops by the Modocs, shows that twenty-two were killed and seventeen wounded, besides a great number missing. Of the dead and wounded many were shot in two or three places.

The Legislature of Michigan has wisely enacted that persons acquitted of murder on the plea of insanity shall be kept in custody as persons dangerous to the community. A similar bill is now pending in the Legislature of New York.

The terrible disaster at Dixon, Ill., shows the necessity of people crowding upon bridges. It seems that a weight of thirty thousands pounds or fifteen tons of humanity was jammed together on a frail structure—enough to crush almost any bridge intended for travel.

Some malicious editors have been slandering our Radical Legislature by insinuating that it would pass a salary grab law before adjourning, in imitation of the Radical Congress. It is due to truth to say that nothing of the kind was done. Fiat justitia.

The Remains of the Late Bishop McIlvaine in New York. The remains of Bishop McIlvaine were landed in New York from the steamer City of Baltimore, on Monday morning. The box containing the coffin was opened, the casket taken out, a wreath placed over the inscription, and the whole covered by an American flag.

Rev. Mr. Lamson, who accompanied the body from Florence, in a few appropriate remarks transferred his charge to Rev. Thos. S. Yocum, and Mr. T. G. O'Donoghue, the committee from Cincinnati. Mr. Yocum received the remains, taking occasion to express on behalf of the Diocese and family, grateful appreciation for the kindness and courtesies shown by the Rev. Mr. Lamson and the officers of the steamer.

The body was then taken in charge by a committee of thirty-five, representing the clergy and laity of New York, who conveyed it to St. Paul's church, where it was placed in front of the church, on the spot where the venerable Bishop was consecrated forty years ago. The ceremonies at the church took place on Tuesday, at 3 o'clock P. M., when a special service was held, conducted by Bishop Smith, who acted by request of the Bishop of New York. At the close of the service, the committee from Cincinnati took charge of the remains and conducted them to that city, by the eight P. M. train, via Erie, Lake Shore and Short Line railroads. They arrived at Cincinnati early Thursday morning, and the burial service will be held in Christ Church, Friday morning, 9th inst., at 11 o'clock.

Murders near Pittsburgh. The Pittsburgh papers bring accounts of two horrible murders committed near that city. The first was that of a young girl named Lizzie Mose, who was murdered in the woods near Salisbury. Two men named Polke and Hyndman, who had been seen by several parties near where the murder was committed, were arrested, and are now on trial at Pittsburgh. The principal evidence against them is the fact that their shoes fit exactly in tracks found near where the girl was discovered.

A dispatch to the Pittsburgh Commercial, May 3d, states that a murder was committed near Ridgeview, Pennsylvania, on Thursday afternoon. A boy named George Schum, 16 years of age, while returning from Ridgeview with some groceries, was met by another boy named Timothy Bacon, who was several years his senior. Bacon was seen by some women to strike Schum, endeavoring to take from him his groceries. This was the last time he was seen alive. His body, which was lying beside a log, almost entirely covered by leaves and brush, indicating that every effort had been made to conceal it. From the appearance of the body, it was evident that he had been dragged a considerable distance. It was stated that after Bacon was arrested and brought to the inquest where the body of Schum was, he acknowledged accomplishing the bloody deed. Bacon was taken to Greensburg and lodged in jail to await trial.

TERRIBLE DISASTER! Fall of a Bridge with Two Hundred People. Thirty-Two Bodies Recovered—Fifty Others Believed to be Under The Ruins. DIXON, ILL., May 4.—A terrible accident involving a fearful loss of life occurred here this afternoon. The rite of baptism was being administered to a number of recent converts to one of the Baptist Churches here, at a point in Rock River just below the Truesdell iron bridge. About two hundred persons, including many ladies and a number of children, had gathered on the bridge to witness the ceremony. Suddenly, without warning, the bridge gave way, and precipitated the living freight into the stream below. The scene which ensued was in desecrably terrible. As the struggling victims vainly endeavored to free themselves from the ruins of the bridge and from each other, large crowds of people on the banks rushed wildly to and fro, many of them so distracted with terror as to be unable to render any assistance. Others, more self-possessed, speedily brought ropes, planks and boats, and went nobly to work to rescue the living and recover the dead. Some of those who were on the bridge when it fell were so near the end that they were able to reach the bank without assistance, while others were fortunately within reach of those on shore. Up to 6 p. m. thirty-two dead bodies had been taken from the river, and it is almost certain that there are others still under the wreck of the bridge. Of those saved, twenty-four were more or less injured, some fatally. DIXON, ILL., May 4.—Midnight—Up to this hour no other bodies of victims of the bridge disaster have been discovered at this point, but several are reported to have been picked up at Sterling, six miles below here, and doubtless the swift current had borne others even farther down the river. The general estimate of the number lost is from ninety to one hundred as stated in previous dispatches. Thirty-two bodies were recovered from the wreck before dark. Five other bodies floated down past those engaged at the wreck, and have not been recovered. They are, therefore, supposed to be at least fifty miles still unaccounted for. Most of them, it is thought, are under the wreck of the bridge. The Murder near Columbus. COLUMBUS, May 2.—The coroner's jury in the case of the dead man found near this city, on the Baltimore Railroad track, yesterday, supposed to be Charles King, rendered a verdict to-day that deceased came to his death from a blow administered by some person unknown. From the testimony of several witnesses it appears that on Wednesday evening King and Sullivan (who is now in the hospital badly wounded), and another man named Jack, went across Alum Creek Bridge, and next morning returned across the bridge alone and has disappeared. The ground in the vicinity of where the dead man was found indicated a severe struggle, and a fight no doubt occurred. Sullivan says he and King are friends, and came from Cincinnati a few days ago; that they met this man called Jack, and started on a visit west of the city. Sullivan's talk beyond that he has no insight into this mysterious affair, but as Jack is missing, and both men, when found, had their pockets turned inside out, it would indicate that if found he could tell something about this tragedy. — The social event of the week was the ball and supper given by the young ladies to the gentlemen of the "Jolly Quadrille Club," at Apollo Hall, on Monday evening last. The hall was tastefully decorated, the music superb, and the refreshment elegant. The ladies looked their loveliest, and vied to make the affair a success. The company broke up at a seasonable hour, all present agreeing with unanimous voice that the closing party had been the most enjoyable of the season.

**Death of Moses White, Esq.**  
Our former townsman, MRS. WHITE, died at Urbana, Ohio, on Friday last, after a long and painful illness, aged 74 years. He was a brother of George B. White of this city and Mardenboro White, Treasurer of Kenyon College, Gambier. The deceased was a native of Stamford, Conn., where he was born in the year 1799. He resided for many years in Derby, Conn. He was engaged in the Commission business in New Orleans for some time, and afterwards in the Hardware business in Cincinnati. He located in Mt. Vernon in the summer of 1853, having bought the Bookstore formerly owned by Mr. Cunningham, which he carried on until the year 1859, when he sold to Messrs. Whitcomb & Chase, and removed to Urbana, where he resided until the time of his death. His remains were brought to Mt. Vernon, and interred in the Catholic Cemetery on Monday last, beside his beloved wife, who died in 1862. A large number of our citizens turned out to pay the last tribute of respect to their old friend and fellow-townman.  
Mr. White, although educated in the Protestant Episcopal church, became a convert to the Catholic faith, and died a zealous member of that church. He was, at all times, a sincere and earnest Christian; and although a quiet, unobtrusive man, his many acts of benevolence will long be cherished as monuments to his memory. He left an estate valued at about ninety thousand dollars, mostly in Railroad stocks. His brother-in-law, and former partner, J. L. Wayne, Esq., of Cincinnati, is named as Executor in his will.

**Miss Evans's Concert.**  
Miss ANNA E. EVANS, assisted by a number of her music scholars, will give a grand Concert, at Woodward's Opera House, on Tuesday evening next, May 13. Miss Evans's well known ability as a teacher, and the success with which her former concert have been attended, warrant us in saying that this entertainment will be first-class, and that a rich treat is in store for our music-loving public. The selections are made from the latest music, and will consist of vocal and instrumental solos, many acts of benevolence, difficulty in duets, &c. An attractive feature in the programme is that the instrumental duets will be executed upon two pianos. Tickets can be secured in advance without extra charge, at Chase & Van Alkin's Bookstore.

**Our New Railroad.**  
The bridge over Alum Creek (which is about ten miles this side of Columbus) has been completed; and the track-laying beyond that point is now progressing at the rate of about three-fourths of a mile per day. Judge Hurd gives it as his opinion that unless some unforeseen difficulty intervenes, the construction train will reach Columbus in two weeks. Of course it will take some time afterwards to ballast the road, and put it in proper condition for the large amount of business that will necessarily be thrown upon it.

**Killed by the Cars.**  
An old gentleman named John Reading, aged 80 years, residing at Bellevue, while in the act of crossing the railroad track to the depot, in that town, on Friday morning last, was struck by a passing train, thrown violently upon the platform, and died from the injuries he received about an hour afterwards. Being hard of hearing and infirm from old age, he probably became confused, and could not get out of the way of the approaching train.

**Run Aways.**  
The season for runaways has been fairly inaugurated; and whenever the streets become particularly quiet and dull, the horses give an exhibition of speed that is enlivening in the highest degree.  
On Wednesday last week, a team attached to a heavy load of wood, standing on Main street, below Gambier, took flight at a moment's notice, and started northward at a pretty rapid rate, considering the load they had to pull. As usual people ran out on the street yelling like wild men and throwing up their hands in the most frantic manner, which had the effect of frightening the horses still more. The owner of the horses, however, before they had proceeded very far, ran like a young antelope, sprang upon the wagon with the agility of a circus rider, caught the reins, and stopped the horses in a manner that was truly heroic, and called forth a round of applause from all who witnessed the performance.  
On Thursday afternoon Mr. Bennett's blacks, while attached to a wagon load of saw dust over at Martin's saw mill, became frightened and started for town at 2:40 speed, running through the two bridges, up Main street to Gambier, down Gambier to Mulberry, up Mulberry to Vine, down Vine to the B. & O. Railroad, from thence back to Gambier and up Gambier "to the place of beginning." It was a fearful scene! The streets were crowded with people, and many wagons and carriages were standing at the side-walks; and although extraordinary efforts were made to stop the runaway, it was not until they reached the livery stable, and Mr. Bennett thrust a piece of scantling in front of their heads that they could be checked. Fortunately no harm was done to the horses or wagon, or to any person or property on the "line of march."

## Wit and Humor

Poor stuff—Anti-moody.  
A juicy berry—Danbury.  
A maiden speech—"Ask papa."  
A naughty man—Hon. J. H. Sylvester.  
The book of job—Oakes Ames' memorandum book.

Latest markets—Cod-liver oil is in good consumptive demand.  
Items of Interest—Announcements of dividends.  
A friend confesses himself non-plussed because he has got no dividends.

Important to the heirs—When a young lady dyes, and is going to mount Auburn.  
A question of genealogy is raised by our friend Adamson, who wonders if he is a descendant of Cain.

A printer remarks that he has never been able to give a proof of the "adding '11" bill he was locked up in his form.

It is said that the reason that General Butler is so apt at cross-questioning is that he always has a quiver eye ready.

A contemporary speaks of a fashionable tailor as being "one of the old war horses of the trade." A heavy charge, we suppose.

The report that the Modoc Indians had been engaged to put war whoops on barrels of army stores has been contradicted.

Is there any reason why the name "laudog" should be monopolized by a particular breed of canines? Don't they all drink that way?

Ladies' head-dresses have become such a subject of conversation that the city government has "permission to build"—before they can get ahead.

The word love, in the Indian language, is "schenlamourteyager." Would it not sound sweet to whisper softly in a gushing young darling's ear, "I schenlamourteyager you?"

A painter being asked to estimate the cost of painting a certain house, drew forth pencil and paper and made the following calculation: "A naught is a naught; three into five twice you can't; I'll paint your house for fifty dollars."

The following sparkling dialogue is represented by London Punch as taking place between a lady and gentleman during the dreary half hour before dinner: "Dining at Lady Lamberton's tomorrow?" "Yes." "So am I." "So glad?" "So glad you're glad!" "So glad you're glad I'm glad!"

## Knox County Farmer.

Short-Horns not Suited for All Places.  
Dr. E. D. Moss, of St. Louis, an editor of acknowledged ability, thus expresses his opinion on the short-horn mania, in Colman's Rural World:

While the short-horn fancy has put money into the pockets of wealthy breeders, its effects have been disastrous or unsatisfactory to too many instances. Farmers like to be in the fashion; they are naturally ambitious to improve their cattle by means of the magnificent short-horns, so much admired by every one; they take in the fashionable idea that they must have big cattle. If they inquire, "What improved breed of cattle shall I get?" the chances are that they will be told, "Get the short-horn, by all means; there is nothing like them." In some cases the advice is good; in more it is bad. If the object is to raise cattle for any other purpose than beef, the short-horn is not the best. If the farmer is not willing, or prepared to give them the high feeding and careful attention to which they have been accustomed, they will dwindle, and he would do better to take cattle better fitted for shifting for themselves. If he lives in a hilly or mountainous region, he will have indifferent to bad success with short-horns in nine cases out of ten. Elm, sycamore, cottonwood, and black walnut tree grow to magnificent proportions on rich bottom lands—their natural home; they are not natural to lean, hungry soils, and cannot be made to attain the same perfection in them. It is so with the short-horn; to undertake to breed and rear these mammoth-framed cattle on poor soils and steep hillsides, is to attempt what is contrary to nature and the fitness of things, and making an exception which nature will not endure. Yet it is done every year, and will probably continue to be done until better experience teaches better.

## Rearing Bull Calves.

The Scottish Farmer thus describes the manner of rearing calves in Scotland: "A bull calf intended to be kept for service should get a full allowance of new milk daily for at least four months, along with cake. The object throughout in rearing calves should be to keep him in vigorous health, but carefully avoiding that 'show condition' which some think requires in bringing up young calves. Ben-meal, cake, and crushed oats, along with grass or hay and roots, is the best diet. During the first year, young bulls should be ringed, and accustomed to be led about by a collar. If they are to be used for breeding, they should be kept in the house, and in convenience him in walking. Bull calves are unsuited for confinement, and are apt to become vicious; but much depends upon the keeper. Any keeper who systematically maltreats a bull, or appears timid in going about him, should be changed at once."

## Raising Roots for Cattle.

EDITOR WESTERN RURAL:—I think people do not pay attention enough to raising roots for cattle, and as I have had a little experience in that line I will give it for the benefit of your readers.

In 1871 I purchased four ounces of mangel wurtzel seed and sowed it in two square rods of ground, in drills two feet apart, and tended with a hoe; and in the fall I harvested from said piece of ground thirty bushels of beets, sixty pounds to the bushel. The same year I sowed about one-eighth of an acre of carrots, from which I obtained forty-five bushels.

In 1872 I sowed three-eighths of an acre to mangel wurtzel, in drills three feet apart, from which I obtained 191 bushels. I also sowed three-eighths of an acre of carrots, in drills two feet apart, and obtained 125 bushels. The carrots were more expensive in weeding and digging and returned less feed in proportion to the amount of land sown, than the mangel wurtzel, but of a little better quality. I think mangel wurtzel the cheapest food for cattle that can be grown, if we take the amount of land used into consideration. M. N. S.

## Sheep vs. Cows.

At a recent family meeting in Wisconsin the comparative profit of keeping sheep and cows was up for discussion. One party stated that he kept twenty-two cows on a farm of 115 acres, and that these cows yielded about \$50 each. Another received \$30.50 per cow besides making about twenty pounds of butter each. A third speaker stated that he could keep twenty cows as easily as 100 sheep, but that he would keep more sheep if there were less danger of loss by dogs. One party stated that he realized \$175.24 from forty-three sheep last year. We would like to hear from any of our readers who may have experimented on the comparative profits in keeping cows and sheep.

An Amos Allen, an employee of the M. & P. railroad, was run over by the cars at Caldwell, on Tuesday week, and so badly crushed that he died in a few hours.

## WISHART'S PINE TREE

Tar Cordial,

NATURE'S GREAT REMEDY

FOR THE

Throat and Lungs.

It is gratifying to us to inform the public that Dr. L. Q. C. Wishart's Pine Tree Tar Cordial, for Throat and Lung Diseases, has gained an enviable reputation from the Atlantic to the Pacific coast, and from thence to some of the first families of Europe, not through the press alone, but by persons throughout the States and Europe, who have cured at its office. While he publishes his name, so say our reporters, he is unable to supply the demand. It gains and holds its reputation.

First. Not by stopping cough, but by loosening and assisting nature to throw off the unhealthy matter collected about the throat and bronchial tubes, which causes irritation.

Second. It removes the cause of irritation (which produces cough), of the mucous membrane and bronchial tubes, assists the lungs to cast off and throw off the unhealthy secretions, and purifies the blood.

Third. It is free from squills, lobelia, ipecac and opium, of which most throat and lung remedies are composed, which either cough only, and disorganize the stomach. It has a soothing effect on the stomach, acts on the liver and kidneys, and lymphatic and nervous systems, thus reaching to every part of the system, and in its invigorating and purifying effects it has gained a reputation which it must hold above all others in the market.
